### HOPE GANGLOFF

**Susan Inglett Gallery, May 1 - June 6**

The artist Hope Gangloff marries the compositional economy and telegraphic expressiveness of illustration with the *je ne sais quois* of fine art, yielding intimate paintings, drawings, and prints that brim with the vitality of the young bohemian social scene they depict. In her show of new work at Susan Inglett this month, she follows up her recent survey at the Broad Art Museum with an array of paintings, drawn from life, that capture the pleasures of an American summer by the sea.
