3. "**Robyn O'Neil: American Animals**" at Susan Inglett Gallery, New York

Robyn O'Neil has become known for her depictions of pre- and post-apocalyptic scenarios, as seen in her nine-by-12-foot graphite drawing on canvas, *American Animals*, a seascape filled with countless tiny men struggling to stay above the waves. The striking image is a reminder of the challenges endemic to U.S. society—and perhaps a suggestion that wiping the slate clean might not be so bad.
